I'm fed up to the ears with old men
dreaming up wars for young men to die
in.

George McGovern

President's Message

A few years ago I joined Facebook and followed the postings of friends and family. I confirmed that my nephews were thoughtful and literate; that the great-grandchildren were growing in number, size and beauty just as I would expect; that there were many wonderful opportunities to learn from others; and kittens and puppies are invariably cute. I also learned that I could easily spend hours trying to keep up with all that was there. For several months I've been spending very little time on Facebook and, while I may not have become any more productive, I haven't seen nearly as many hate filled diatribes from the political left and right. But, I find that if I don't check for myself, others have to tell me that my brother's sore foot is just a sore foot, my nephew's house burned down, and there were some interesting things I missed that other people posted. So I'll continue checking in on Facebook and occasionally posting my thoughts.

The Fellowship has a Facebook page which I check occasionally and I hope you will too. If there's anything you'd like to see there, let me know.

The people can always be brought to the bidding of the leaders. That is easy. All you have to do is tell them they are being attacked and denounce the pacifists for lack of patriotism and exposing the country to danger. It works the same way in any country.

Hermann Göring

Justice will not be served until those who are unaffected are as outraged as those who are.
